

# PRODUCT INFORMATION

## EASYSTRIP

### MOP-ON FLOOR FINISH LIQUIFIER

- Features** : Designed to remove old floor finish quickly without machine scrubbing.
- Saves labour cost and time as no vigorous agitation or scrubbing is needed.
- Transforms floor finish to its original liquid state, enabling the user to pick up the emulsion with mop or wet vacuum.
- Uses** : For removal of aged (oxidised) build-up emulsion floor finish from terrazzo, marble, stone tiles.
- Especially suitable in areas where machines are not permitted (e.g. where static discharges can be a nuisance) and in difficult to reach areas such as staircases, hidden corners.
- Directions** : **EASYSTRIP MOP ON** is diluted with water on a 1:4 ratio for light build-up, 1:2 ratio for medium build-up, and a 1:1 ratio for a extra heavy build-up.
- Spread enough solution to floor with a mop and let soak for 3 to 5 minutes or longer when necessary.
- Agitate the solution on the floor with the same mop to speed up emulsification. Pick up all of the solution with a clean mop or wet vacuum. Rinse floor if needed to ensure a cleaned surface.
- Specifications** : Appearance : Clear pale straw colour liquid  
pH (1% solution) : 11.0 - 12.0  
Sg : 1.020 – 1.040 @ 26 °C
